2020 Census
The 2020 Census count began in January, this is a once-a-decade operation in which every household in the United States will be asked to answer a short series of questions that will influence policy making and planning for the next decade. The U.S. Constitution mandates that a census be taken every 10 years to count all people—both citizens and non-citizens, living in the United States. Responding to the census is mandatory because getting a complete and accurate count of the population is critically important. An accurate count of the population serves as the basis for fair political representation and plays a vital role in many areas of public life.

What's first....
March 12 - 20: Households will begin receiving official Census Bureau mail with detailed information on how to respond to the 2020 Census online, by phone, or by mail.
March 30 - April 1: The Census Bureau will count people who are experiencing homelessness over these three days. As part of this process, the Census Bureau counts people in shelters, at soup kitchens and mobile food vans, on the streets, and at non-sheltered, outdoor locations such as tent encampments.

Committees and Commissions!
If you or someone you know is interested in getting more involved with the city, we are currently looking for community members to fill positions on our committees and commissions.
