From: Mark Wilson, DPW Director/Zoning Administrator

Re: Demolition estimate

After requesting proposals from several contractors, I received one estimate for demolition of the city owned property located at 402 W. 10th Street.

RCB Contracting Services provided an estimate of \$9,500.00. RCB's estimate does not include lead and asbestos testing.

Northern Analytical Services, LLC. of Big Rapids can provide a lead and asbestos survey for a base fee of \$400.00 with an additional fee of \$25 per sample item tested.

I would estimate that the total project cost would be under \$12,000.00 provided no major environmental issues are found. It is my recommendation to council that we move forward with environmental analysis of the building followed by demolition.

Sincerely,

Mark Wilson
Public Works Director / Zoning Administrator
