(a) Definitions:

As used in this chapter:

5. "Ready to Serve Charge" is the name given to the costs associated with retiring all or a portion of the debt of the water supply system, capital improvements and maintenance and repair. The monthly charge is based upon the users' meter size, and will be charged, per unit.

1040.04 Meters

(h) Adjustment of Meter Bills

If a meter fails to register properly, the consumption for the period will be estimated by using the average of the same month, in the three proceeding years, when the water was measured correctly. If previous usage is inadequate for estimation, estimation shall be based on Osceola County estimation of 50 gallons, per person, per day, usage. If a meter reader is unable to gain access to a meter for reading, after two calls, the bill for the period may be estimated and the proper correction made on the bill, for the next period. If a metered water bill appears excessive, complaints should be made to the City Water Department immediately and the meter will be re-read and reasonable assistance given in searching for waste of water.

(j) Irrigation Meters

When an owner of property has an irrigation meter, the meter readings must be submitted to city hall by the 25th of each month, to get a sewer credit applied to the current month's bill. If the irrigation meter reading is submitted after the 25th of the month, the sewer credit shall be applied

to the following month's bill. Sewer credits shall only be issued for the current year. If a resident fails to provide an irrigation reading, for the current year, a sewer credit will not be given.

(11) When two or more buildings, or units, are supplied through a single service pipe, any violation of the rules of the Department with reference to either, shall be deemed a violation as to all, and the Department may take such action as could be taken as to a single building, or unit.
